Introduction

What would education be without assessment or evaluation?

For most of us the thought of assessment or evaluation conjures up immediate thoughts of fear and endless hours of studying to prove that we know our stuff. But what exactly is assessment or evaluation, and how can we go about making it less stressful.

Definition of assessment and evaluation

Assessment is a step in the learning process whereby the coach is informed of his/her performance or progress towards the achievement of a given outcome. It is the formative process, which provides information and feedback on coaching performance at a given time.

Evaluation is the process whereby a judgement is made on the ability of the coach to demonstrate one or more outcomes to an established standard. It may require several assessment methods. Evaluation is objective and provides a benchmark for determining competency.

What is a competency?

A competency comprises “the application of specific knowledge and skill to a standard of performance required in the coaching context.”

The broad concept of competency covers all aspects of performance and includes:

1. Applied skills (eg. being able to coach specific elements in specific situations)
2. Management skills (e.g. being able to prepare, plan and organize coaching situations)
3. Contingency management skills (e.g. being able to fix problems that occur)
4. Interpersonal skills (e.g. being able to work with others)

Competency based assessment

Competency based assessment differs from traditional forms of assessment which you may be familiar with through previous education or training experiences. The major differences include:

1. Competency based assessment is criterion based.
   This means that coaches are assessed against standard criteria or benchmarks (i.e. not against each other). The criteria are from a set of national competency standards, learning outcomes and other performance outcomes.

2. Competency based assessment is evidence based
   This means that decisions about whether a coach is competent are based upon evidence provided by the coach. The evidence may be demonstrated or produced by the coach or gathered by the Evaluator.

3. Competency based assessment is participatory
   This means that coaches are involved in the assessment process. A competency based approach encourages the use of a wide range of assessment methods. What is important is that you get the chance to show the Evaluator that you are capable of performing the required task.
Assessment within the Gymnastics Foundations coaching context

The Evaluation Component of the Gymnastics Foundations NCCP is the vehicle used to confirm your competency as a coach. The Gymnastics Foundations Introduction, Theory and Gymnastics Sport-Specific manuals and courses represent the information gathering step of learning how to coach. The Practical Workbook and supervised coaching represent the application step of learning how to coach. The Evaluation is the performing step of coaching.

The purpose of the Evaluation Component is not to determine your coaching ‘grade.’ Rather, it is to create an awareness of your coaching strengths and weaknesses to help you continue to improve your coaching skills. The Evaluation Component provides you with an opportunity to:

1. Absorb and apply the knowledge acquired in the training courses over a period of time.
2. Receive feedback on your strengths and weaknesses to develop a plan for improvement.
3. Compare your coaching abilities to an established national standard with coaches who have a similar amount of experience.
4. Demonstrate your ability to plan, deliver and evaluate a safe, age and level appropriate gymnastics lesson, which includes detecting and correcting basic gymnastics skills.

Self-assessment questionnaire

You may be asking yourself, “Am I ready to complete the evaluation?” You may find this to be a difficult question to answer. The following self-assessment questionnaire will give you a pretty good idea if you are ready or not to start the Evaluation process.

- I can prepare a lesson plan for my group of gymnasts and deliver this lesson plan without having to make too many on-the-spot adjustments.
- I set goals for each lesson and meet them at least 70% of the time.
- I know the ‘developmental targets’ and teaching progressions for the FMPs/basic skills in the gym sport in which I would like to be evaluated.
- I know the key technical points for this gym sport’s FMPs/basic skills.
- I can teach this gym sport’s FMPs/basic skills to participants with different learning styles.
- I use a variety of teaching styles & practice conditions appropriate to the participant’s learning stage.
- I give constructive and positive feedback.
- My gymnasts’ learn something every lesson.
- I have developed a good rapport with my gymnasts.
- I communicate (progress) with gymnasts and their parents efficiently.

If you answered yes to a minimum of 80% of these questions you are ready for the Evaluation. If you did not answer yes to 80% of these questions or feel that you need to improve your coaching, you might want to:

2. Create your own coaching development plan outlining the coaching skills you want to develop - refer to your Action Cards in your Gymnastics Foundations Theory manual.
3. Discuss with a more experienced coach (mentor, supervisor, or head coach) what you need to do to improve your coaching skills.
Gymnastics Foundations training and certification requirements

You are considered to be a TRAINED Gymnastics Foundations coach after you have completed the following courses:

1. Gymnastics Foundations Introduction (2-day multi-gymnastics course)
2. Gymnastics Foundations Theory (1-day multi-gymnastics theory course)
3. Gymnastics Foundations Sport-Specific (gymnastics sport specific 1-day course)

These courses and the Gymnastics Foundations Coach’s Workbook are designed to prepare you to start coaching under the indirect supervision of a certified coach. This means that as a trained coach, you may be assigned your own group. However you still require some supervision and cannot be left alone in the gym with a group of gymnasts until you have demonstrated your competency in ‘Lesson Planning’ and completed the ‘Make Ethical Decision’ online evaluation.

The goal of the Gymnastics Foundations Evaluation is to verify that you can develop, implement and evaluate a safe, age and level-appropriate gymnastics lesson.

When you feel you are ready to be evaluated, you may apply to start the Evaluation Component. You will be expected to know and apply the philosophy, teaching methods, and progressions presented in the Gymnastics Foundations courses.

To become a CERTIFIED, Gymnastics Foundations coach you must:

Part 1: Successfully complete the Coaching Portfolio evaluation
Part 2: Successfully complete the Videotaped Lesson evaluation

Completion of the Evaluation Component is the difference between being a TRAINED coach and a CERTIFIED coach within the Gymnastics Foundations NCCP.

This document describes the certification requirements for the Gymnastics Foundations Coach NCCP. It contains all the information, forms and templates you need to complete the Gymnastics Foundations Evaluation Component.

The coach evaluation process for certification is administered by Gymnastics Canada. The cost of the evaluation is $100 (for 1st Gymnastics Sport) and is payable to Gymnastics Canada when you submit your application form and Coaching Portfolio (Step 1). Once your Coaching Portfolio has been received by Gymnastics Canada, you should be able to complete the rest of the evaluation within 3 months if you do not have to redo any of the work.

If you wish to be evaluated for Certification in a 2nd, 3rd or 4th Gymnastics Sport, the cost of the 2nd, 3rd or 4th evaluation is $75 payable to Gymnastics Canada.
When you have completed all 3 Gymnastics Foundations coach training courses, you are eligible to apply for the Gymnastics Foundations Evaluation. A qualified Evaluator will be assigned to you by Gymnastics Canada. Your Evaluator will contact you after you have submitted your Coaching Portfolio (Part 1) to guide you through the Videotaped Lesson evaluation (Part 2).

Lesson plans...

All coaches should use lesson plans on a regular basis for the following reasons:

- Lesson plans help improve coaching skills more rapidly. They allow coaches to keep track of teaching methods and progressions that worked as well as those that didn’t.
- Lesson plans allow the training of gymnasts to progress in an organized fashion.
- Lesson plans result in a better prepared coach and a more effective lesson delivery.

The following information must be considered for each lesson you plan:

- Your goals and your participants' motivation
- Your participants' learning styles
- Your participants' learning stage(s)
- The teaching style and methodology you will use
- The practice conditions and equipment you will use
- Your evaluation (what worked, what didn’t, what would you do differently next time) and how this will the next lesson you plan for this group
Once you have successfully completed your Coaching Portfolio evaluation, you will need to submit a DVD of you delivering a gymnastics lesson. You will need to write a 2nd lesson plan and film yourself using a tripod, or have someone film you (recommended), delivering this lesson to your gymnasts.

Part 2: Videotaped Lesson Evaluation

Your DVD must include the following:

- **Filmed introduction (1 to 2 minutes maximum)**
  - At the beginning of the video, you must introduce yourself (state your name, the club where you are working, the time you have spent working with these gymnasts, the gymnasts’ age and their level).
  - Do this ahead of time so it does not interfere with your pre-lesson preparation.

- **Filmed lesson (length of the lesson)**
  - Start filming 5 minutes before the arrival of the gymnasts so the Evaluator can see you preparing for the class.
  - Stop filming 5 minutes after the class is over so the Evaluator can see you ‘cleaning’ up after the class if you do not have to give another class immediately.
  - You must film the gymnasts’ arrival in the gym, the entire lesson, and the gymnasts’ departure from the gym.
  - Your DVD needs to include all 5 parts of the lesson (Introduction, Warm-up, Main part, Cool-down and Conclusion).

- **Filmed self-evaluation (1 to 3 minutes maximum)**
  - At the end of the video, you must briefly explain what worked, what didn’t and what you would do differently next time.
  - If you deviated from your lesson plan you must explain how and why.
  - Do this at a later time if you have back-to-back classes or if you need to collect your thoughts or jot some notes so your self-evaluation is clear and concise.

The following documents must be submitted to your Evaluator with your DVD:

- **Lesson plan, which includes your written evaluation**
- **Overall Program Plan with week corresponding to your Lesson highlighted** so your Evaluator knows where this lesson fits into your overall Long Term Athlete Development plan.

Your DVD will be returned to you unmarked if:

- If your voice is not clearly heard or understood.
- If the Lesson portion has been edited without explanation (see Filming Procedures)
- If it does not capture most of the interactions between you and the participants
- If it is incomplete (missing the introduction and the self-evaluation).
- It cannot be played.
If your DVD is returned to you unmarked:

- You will need to re-film it and resubmit it at your expense. If your DVD was returned because it could not be played, you will not be required to pay an additional fee.
- If your DVD was returned for any other reasons, you will also be required to pay an additional marking fee of $50.

**Part 2: Filming Procedures**

To assist you in producing a quality DVD to standard, we suggest that you consider the following when you film:

- **The film of the Lesson itself must be unedited** - if you have a planned break (snack or drink) you must indicate the start of the break on the film (before turning the camera off) and you must indicate the end of the break on the film (after turning the camera on). This can be done by the coach of the camera person.

- **Your voice must be clear and audible at all times.** This means that the camera cannot be too far from you. You should ask a parent or another coach to film if your gym is big or if you move around a lot. You can also use a portable microphone.

- **Background noise, including music, should be minimal.** You may need to prep the other coaches in the gym so they can help keep the noise level down as much as possible.

- **The camera must be held steady.** This is best done using a tripod, which can be moved, or by placing the camera on a steady surface.

- **The camera must focus on the coach and participants throughout.** You will need to make sure that the camera angle is wide enough to capture you and the participants as they complete the different activities you have planned. The camera person should stand behind and to the side about 8 to 10 feet away from you. The camera angle must permit to capture the demonstrations, discussions and performances of the gymnasts. If you move, the camera person also needs to move.
